Mrs. Eaton was arrested twelve days after the admiral died from poisoning at her home March 8. Mrs. Eaton is accused of having placed poison in coffee and other food prepared for the admiral. A postmortem examination revealed the presence of a deadly drug in the stomach but so far as known the authorities have never been able to trace the purchase of the poison.

Despite the reported declaration of Russia that the Turks would not be permitted to retake Adrianople, the troops of the sultan entered the holy city of Moslem today, according to a London Times special meeting with but slight resistance from the dispirited Bulgarian garrison. The recapture of Adrianople, it is feared, will result in a reopening of the entire Balkan question, and may lead to armed intervention by the powers.

The Matson Navigation Company's steamer Lurline, Captain H. F. Weed, which is to steam for the islands Tuesday, will take out a big cargo of 56 tons for the Pearl Harbor fortifications. Arrangements are being made which will permit the Lurline to steam directly into Pearl Harbor with its government consignment. ## Good Blood!

Does your heart send good or bad blood to your brain? If bad, impure blood, then your brain aches. You are nervous, restless, cannot sleep. You are as tired in the morning as at night. You have no nerve power.

Stimulants will do you harm. What then?

## Ayer's Sarsaparilla

SOLD FOR 100 YEARS

This is the medicine you need. It removes impurities from the blood, makes it rich in its life-giving properties, and gives tone to the whole system. Ask your doctor all about this.

To have good blood and strong nerves, your bowels must be regular. There must be at least one free movement each day. Ayer's Pills quickly correct any tendency to constipation. Just one pill at bedtime, only one.

ple I am working for." Secretary Lane so stated the purposes generally of a trip on which he left Washington to be absent a month or more. Thus far he has planned his trip only into Wyoming and Montana, but will determine after reaching Montana whether he will extend his trip further west.

Speaking in the senate Saturday, Senator A. B. Cummings of Iowa protested against what he termed "executive coercion" in the framing of a tariff law by congress. He said in part:

"Many bankers believe that the legislative department of the government should hold executive power, but it is yet to be proposed in a free government that a single executive should hold legislative authority over a great people. Yet we are drifting in that direction. I doubt if there is a man in the United States bold enough to assert that the legislative branch of the government should be abolished, and that the people should elect, at stated intervals, a dictator, who would make and execute the laws. Yet it would be far better to make the exchange than to tolerate the practice of 'executive coercion'."

Senator Cummings denounced the Democratic caucus, which he declared constituted "not only invisible but inaudible government," whose operation "denied the most sacred rights of the people."

He announced that he intended to oppose the Underwood tariff bill as a whole.
